👋 Hi there! I'm a passionate self-taught Front End Developer with six years of experience in building exceptional user interfaces and interactive web applications. I'm dedicated to crafting delightful user experiences through cutting-edge technology and design.

Experience

Senior Front End Developer
Infogain

Jun 2021 - Present
(2 years, 10 months)

- Developed clients main corporate website, incorporating modern design principles and ensuring optimal user experience across devices.
- Developed a dynamic and responsive blog site, enabling seamless content updates and engaging user interaction.
- Developed reusable UI components to enhance productivity and maintainability, leveraging technologies such as Next.js, TypeScript and Styled Components.
- Proficient in Next.js for building server-side rendered React applications.
- Leveraged Contentful as a headless CMS to manage and deliver content, facilitating content updates and localization.
- Collaborated closely with design teams to translate mockups and wireframes into interactive and responsive web interfaces.
- Actively participated in agile environment, including sprint planning, daily standups, and retrospectives, to ensure smooth project delivery and continuous improvement.
- Successfully optimized website performance, achieving significant improvements in page load times and Core Web Vitals scores, resulting in enhanced user satisfaction and search engine ranking.
- Received recognition from management for exceptional contributions to project delivery and commitment to technical excellence.
- Conducted code reviews and provided constructive feedback to team members to ensure adherence to coding standards and best practices.

Front End Developer
TheSwipeWire

Dec 2020 - Jun 2021
(6 months)
